Subject: CVPIA Moving Forward email text

Hi Anna,

I'm done until Tuesday though this is the text I was working on for the email invite with DISE, Exec, Art, Hong and others. I'll send out the email and likely a Doodle Poll on Tuesday.

This meeting is being scheduled to discuss DWR wide coordination on CVPIA. CVPIA is an important stable funding source for California restoration actions. We currently do not have a cost-sharing agreement with Reclamation on CVPIA. The current direction that Reclamation has proposed is for DWR and CDFW to independently work on CVPIA related activities. Being that CVPIA does require a State cost-share for many subsections, Reclamation would like an agreement where we agree to report our CVPIA related expenditures. I'm currently working up numbers to report on DWR CVPIA related expenditures which will be transmitted to Reclamation. In summary we need to discuss how we provide for Reclamation's need to show State CVPIA expenditures. Additionally with the understanding that our financials allow Reclamation receive more funding, we should be asking ourselves what we want in return.

Thanks,

Jacob
